

Fifth Ward Enrichment Program

Mission:

The Fifth Ward Enrichment Program (FWEP) works to empower boys to become responsible men and productive members of their families and community.

Each school year, September through June, FWEP's goal is to engage, mentor, and case-manage a maximum of 200 boys at five school sites. (Boys attending Barbara Jordan High School for Careers, who are zoned to either Kashmere or Wheatley high schools and reside in the surrounding Fifth Ward community, are allowed to participate in the School-based Project. As a "satellite project", Jordan High has become the sixth FWEP project site).

The School-based Project is FWEP's core program for intervention and engagement of male students and provides multiple components with an array of services and activities, in formal and non-formal classroom settings, during and after school.

Address:

Fifth Ward Enrichment Program
4014 Market Street, Suite W145
Houston, TX 77020

Current Students:

Fellows Michael Do (left) and Ben Herndon-Miller (right) are currently working with FWEP. Michael is leading tutoring sessions for the upcoming ACT for FWEP students. He is collecting data and tracking their progress and improvement. Ben has been helping students with homework. He has been tracking what subjects students need the most help in to try and identify gaps in FWEP staffing.

Past Students and Projects:
