**YES PREP 5TH WARD**

**Mission:** At YES Prep, we are redefining possible by creating life-changing opportunities for students from low-income communities. We provide our kids with a high-quality, college-preparatory education that prepares them to compete in the global marketplace and give back to their communities. Through enrichment opportunities and extracurricular activities, we educate the entire child, teaching more than just the textbook. Whether inside or outside the classroom, we push each other to be great and give 100% every day.

**Activities:** Interns will run a during- or after-school activity class on a day of their choosing. Time options are available between 11:25-12:15 or 12:20-1:35 (daily), 10:30-11:35 (Wednesdays), or 4:20 – 6:20 (Mon, Tues, Thurs, and Fri). Fellows will create a lesson plan for each day and work with a small group of student 10 – 15 students. There is also the opportunity to be an advisor to a smaller group of students at various times throughout the week. As an advisor, interns would help students with their grades and in developing character skills.

**Needs/Projects this year:**
- 8 interns to teach 4 classes of 10-15 students
- The topics of classes can vary (previously, dance, computers, and health/wellness have been class topics)

**Who should apply?**
- We are looking for interns who are highly motivated and creative in order to create their own classroom lessons and curriculum
- Interns need to be patient and energetic to work with children ages 11-15
- Interns should be open to change, as there are many factors that affect public school schedules (parents, students, district, weather, late busses, schedule-changes, etc.)

**Who should not apply?**
- The class you create is largely open to whatever interests you. If you are looking for a internship that has a strict structure for the way your class should look, you will likely not find it here
- If you are quickly irritated or impatient, especially with young children, you will find that you will be working with children for 90% of your time at YES
